

THE JTA

COMMITTEE ON THE STATUS OF WOMEN REPORT

DR. LATOYA REEVES

INTRODUCTION

The committee comprises of six (6) elected, six (6) co-opted members and the fourteen (14) parish representatives. The main objective of this committee is guide females into positive leaders of society. It also uses strategies to build each sister in a holistic manner. The committee operates by it's mantra "Sisters Build".

FINAL ACTIVITY

MEET THE TEAM

BONE CANCER

Bone cancer begins in the bones and can be either primary (originating in the bone) or secondary (spreading from other parts of the body). It is relatively rare and often found in children and young adults.

Cancer awareness starts with small steps—learning the signs, understanding the risks, and supporting one another in prevention and treatment.

Dr. Avery Adams

THERE IS ALWAYS
HOPE
